PERSONAL STATEMENT

Passionate Full Stack Developer focused on building scalable SaaS platforms, AI-powered applications, and modern business solutions. Dedicated to clean architecture, performance optimization, and delivering high-quality software for global clients and remote teams.

PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with 3+ years of professional experience building scalable, production-ready web applications using React.js, Next.js, Node.js, Express.js, and MongoDB. Bachelor's degree in Computer Science from Bahauddin Zakariya University, Multan. Experienced in developing SaaS platforms, multi-tenant architectures, AI-powered applications, admin dashboards, and modern business solutions. Strong expertise in RESTful APIs, secure authentication systems (JWT, bcrypt), payment gateway integrations (Stripe, PayPal, PayFast), and cloud deployment using Vercel, Render, AWS, and MongoDB Atlas. Skilled at building responsive, user-focused, and high-performance applications with clean architecture and maintainable code. Passionate about solving real business problems through modern web technologies and collaborating with international teams on remote projects.
